

Mr. Pribonic and Mr. D'Antonio you are both my city councilmen at large. I am greatly concerned that you actually supported a council candidate that actually petitioned for sanctuary cities. So I have a question for you, do you support Stow becoming a sanctuary city? Would you support Ohio becoming a Sanctuary State? Do you realize that is illegal?

There are several things that concern me about your supporting such a candidate. As you know Mr. Pribonic a few yrs. Ago when Mayor Fritschel was in office there were proposed ordinances for home and rental inspections with prison terms attached!!!!

Not only did Senator Tim Grendell write a letter stating how both of those ordinances were unconstitutional but he actually called it Communism. The candidate you supported told me that they supported rental property inspections.

I think you should know if you still believe that it is legal to inspect rental properties there has already been a law suit filed by rental property owners and that was ruled in the courts to be unconstitutional. I can get that information for you if you like.

There are some cities that had to pay restitution for back fees they took on some of the rentals they inspected. Unfortunately many of our residents are ignorant of the law and therefore go along with city inspections. I am NOT ignorant and will not support you ruling to do anything that is unconstitutional.

Stow needs good candidates that support our Constitution. We need candidates that do not attend private secret meetings that are not open to the public. When people meet secretly I believe they have something to hide.

I would like you Mr. Pribonic and you Mr. D'Antonio tonight to put it on the record how you feel about sanctuary cities and Ohio being a sanctuary state. If you do not take this opportunity to state your beliefs on this subject then I believe you have something to hide.
